MONTHLY REPORT

[Redacted Box]

PAR 204

10 July 1964

SUBJECT: Contact Chip Printer

TASK/PROBLEM

1. Develop and fabricate a contact printer to expose 4 x 5 inch film chip prints with minimum loss of information from selected areas of high quality roll negatives (up to 200 lines/mm resolution).

2. Each chip will have a two-line title across one end: the first line human readable, and the second to repeat the first in machine-readable characters.

DISCUSSION

3. No Activity (See Paragraph 4).

PLANNED ACTIVITY

4. We are now awaiting comment upon or approval of the revised objectives as submitted.

Declass Review by NGA.
